INDEPENDENT AUDITORS' REPORT

Honorable Mayor - and Members of City Council
City of Pittston, Pennsylvania

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Pittston, Pennsylvania, as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Managements' Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on Governmental Activities

As discussed in Note 1 to the financial statements, management has not recorded certain general infrastructure assets in governmental activities and, accordingly, has not recorded depreciation expense on those assets. Accounting principles generally accepted in the United States of America require that those general infrastructure assets be capitalized and depreciated, which would increase the assets, net position, and expenses of the governmental activities. The amount by which this departure would affect the assets, net position, and expenses of the governmental activities has not been determined.

Adverse Opinion

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on Governmental Activities” paragraph, the financial statements referred to above do not present fairly the financial position of the governmental activities of the City of Pittston, Pennsylvania, as of December 31, 2017, or the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Unmodified Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Pittston, Pennsylvania, as of December 31, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis and budgetary comparison information on pages 6–12 and 13–26 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any

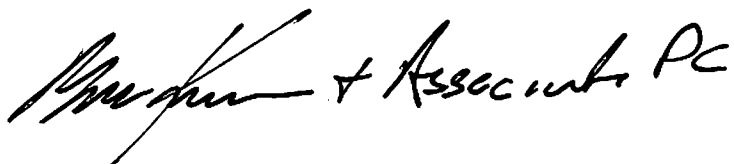

assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Pittston, Pennsylvania's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

A handwritten signature in black ink, appearing to read "Kruppa & Associates PC". The signature is written in a cursive, flowing style.

CITY OF PITTSTON, PENNSYLVANIA

**MANAGEMENT'S DISCUSSION AND ANALYSIS
(UNAUDITED)**

Managements' discussion and analysis of the City of Pittston's financial performance provides an overview of the City's financial activities for the years ended December 31, 2017 and 2016 for governmental activities and business-type activity.

Pursuant to Article IV of the Pittston City Home Rule Charter (Pittston City Code §C4.04) the City Administrator is responsible for specified budgetary and financial administration and this discussion and analysis has been prepared by the Office of the City Administrator. The Independent Auditor's report is authorized by the Pittston City Council pursuant to the Article X of the Pittston City Home Rule Charter (Pittston City Code §C10.01-§C10.03).

FINANCIAL HIGHLIGHTS

Government-Wide Level

- The City's overall net assets increased as a result of this year's operations. The net assets of the business-type activity increased by \$1,590, and net assets of the governmental activities increased in 2017 by \$1,058,745.
- During 2017, the City of Pittston general fund had expenses that were \$313,234 greater than the \$4,680,353 generated in tax and other revenues for governmental programs.

Fund Level

- The General Fund reported a deficit of \$5,682,311 at December 31, 2017 and a deficit of \$6,741,056 at December 31, 2016.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities (on pages 25 and 26) provide information about the activities of the City as a whole and present a longer-term view of the City's finances. Fund financial statements start on page 27 and tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds. The remaining statements provide financial information about activities for which the City acts solely as a trustee or agent for the benefit of those outside of the government.

REPORTING THE CITY AS A WHOLE

"The Statement of Net Position and the Statement of Activities"

Our analysis of the City as a whole begins on page 5. One of the most important questions asked about the City's finances is, "Is the City as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the City as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the City's net assets and changes in them. You can think of the City's net assets—the difference between assets and liabilities—as one way to measure the City's financial health, or financial position. Over time, increases or decreases in the City's net assets are one indicator of whether its financial health is improving or deteriorating. You will need to consider other non-financial factors, such as changes in the City's property tax base and the condition of the City's roads and housing units, to assess the overall health of the City.

In the Statement of Net Position and the Statement of Activities, we divide the City into two kinds of activities:

- **Governmental activities**—Most of the City's basic services are reported here including the administration, code enforcement/building inspection, police, fire, public works (includes street, sanitation, recycling, sewer, and recreation functions), community development, and the **Redevelopment Authority**. Property (Real Estate) taxes, earned income and business taxes, franchise fees, licenses, sewage transmission fees, garbage fees, and state and federal grants finance most of these activities.

- **Business-Type activity-**The Pittston Parking Authority is a Municipal Authority entity organized under the laws of the Commonwealth of Pennsylvania (Pittston City Code §18-3). The Authority collects fees from parking spaces.

REPORTING THE CITY'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

Our analysis of the City's major funds begins on page 8. The fund financial statements begin on page 29 and provide detailed information about the most significant funds-not the City as a whole. Some funds are required to be established by state law and by debt/bond covenants. However, the City Council establishes many other funds to help it control and manage money for particular purposes (such as the Sewer Maintenance Fund) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (such as grants received from the U.S. Department of Housing and Urban Development). The City's two kinds of funds-governmental and proprietary-use different accounting approaches.

- **Governmental funds-**Most of the city's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation on pages 25 and 26.
- **Proprietary funds-**When the City charges customers for the services it provides these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. In fact, the City's enterprise fund is the same as the business-type activity we report in the government-wide statements, but provide more detail and additional information.

THE CITY AS TRUSTEE

Reporting the City's Fiduciary Responsibilities

The City is the Trustee, or fiduciary, for its employees' pension plans (Pittston City Code Chapter 68). It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. All of the City's fiduciary activities are reported in separate Statement of Fiduciary Net Assets and Statement of Changes in Fiduciary Net Assets on pages 33 and 34. We exclude these activities from the City's other financial statements because the City cannot use these assets to finance its operations. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. The pension funds are audited every two years by the Commonwealth's Office of the Auditor General and the audit reports are available at city hall and from the Pennsylvania State Auditor General.

THE CITY AS A WHOLE

The City's combined assets increased from a year ago to \$5.8 million from \$4.9 million. Our analysis below focuses on the net assets and changes in net assets of the City's governmental activities.

Net deficit of the City's governmental activities decreased to \$6,682,311 compared to \$6,741,056 in 2016. Unrestricted net assets, the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements, changed from a \$8,023,364 deficit at December 31, 2016 to a \$7,273,349 deficit at the end of fiscal year 2017.

The assets of our business-type activity increased to \$86,058 in 2017 compared to \$84,467 in 2016.

The cost of all governmental activities in 2017 and 2016, respectively, was \$7.2 million and \$9.2 million. However, as shown in the Statement of Activities on page 26, the amount that our taxpayers ultimately financed for these activities through City taxes was only \$3.3 million in 2017 and \$3.5 million in 2016 because some of the cost was paid by those who directly benefited from the programs or by other governments and organizations that subsidized certain program with grants and contributions.

CITY OF PITTSTON, PENNSYLVANIA
MANAGEMENT'S DISCUSSION AND ANALYSIS
(UNAUDITED)

CITY'S MAJOR FUNDS

As the City completed the year, its governmental funds (as presented in the balance sheet on page 27) reported a combined fund balance of \$1,827,594, which is more than last year's total of \$1,278,528.

- Principal and interest payments made on long-term debt and capital leases were approximately \$1,105,000 and \$149,000.
- During the current year, the fund balance of the Office of Community Development Program increased by \$298,878.
- Each year, the State provides the City with a portion of the gasoline tax revenues it collects. These funds are deposited into the city's **Liquid Fuels Fund**, a restricted use special purpose revenue fund subject to separate audit by the office of the Commonwealth's Auditor General. These funds can only be used for certain purposes related to maintenance and improvement of public roads and street lighting and specific equipment directly related to roadway maintenance. The amount the city receives has been increasing because of a change in state law that resulted in more funds being available. The following table shows the amount of Liquid Fuels funds received by the city in the last 3 years:

Fiscal Year	Liquid Fuels Funds Received from the Commonwealth of Pennsylvania
2017	\$ 224,432
2016	214,474
2015	183,688

March 2017 Blizzard and Effect on Paygo Street Paving

The city suffered an unexpected record-setting blizzard in March 2017 that resulted in costs for annual winter weather response for 2016-2017 far exceeding the budget.

Total city costs incurred over March 14-18 2017 for the response to the blizzard were calculated at \$47,222, much of which was incurred by the Liquid Fuels Fund for emergency snow removal, snow removal equipment and road salt. This level of expenditure was far from the median annual amount for this activity and occurred at

the end of the winter season when nearly all regular appropriations for winter weather response had already been expended along normal historical spending patterns. Thus, the blizzard costs represented a true increase in winter weather costs on top of the regular anticipated costs which did not deviate from the historical pattern. The cost of the blizzard was more than 100% above the total appropriation for winter weather response which prior to the blizzard had followed historical spending patterns and which prior to the blizzard were within levels of the approved fiscal year 2017 budget. Despite an application for disaster relief funding submitted to the state and federal government on behalf of various affected municipalities by the Luzerne County Government, none of the extraordinary costs incurred during the March 2017 blizzard were ultimately reimbursed by the state or federal government. Accordingly, during Fiscal Year 2017, funds were not available for the regular paygo capital annual street resurfacing project. It is anticipated the annual street resurfacing project will resume in Fiscal Year 2018.

CAPITAL ASSETS

During Fiscal Year 2017, city leadership initiated the planning process to establish a current asset inventory of city owned capital assets which is a required component of the annual Financial Statement. Previous administrations had not maintained the fixed assets inventory. The failure to include this required information as resulted in a deleterious comment by the Independent Auditor in the last several annual audits. Not only is the fixed asset inventory a Government Accounting Standards Board (GASB) requirement, it is noted that the future inclusion of the inventoried capital assets would have a significant positive financial impact on the annual financial statement.

Accordingly, in 2016, city leadership moved proactively to initiate work to complete the required fixed asset inventory. However, after review, it was determined that several large capital improvement projects then underway would have a significant impact on the fixed asset inventory. These projects included a significant physical addition to the city's public library building; replacement of all city owned streetlights, downtown streetscape expansion, extensive renovations and an elevator addition to the city hall and considerable changes in the city's vehicle fleet, all of which began in Fiscal Year 2015 and continued for several years, it was deemed prudent to delay the start of the capital asset inventory until the majority of the improvements were completed. Funds for the capital asset inventory program were included in the fiscal year 2018 approved budget, and the project was initiated in the third quarter of 2018 with the plan of completing it for inclusion in the 2018 annual audit.

As a starting point, during Fiscal Year 2016 the city obtained real estate valuations from a professional third-party appraiser, Alan P. Rosen, Esq. (15 Public Square, Suite

CITY OF PITTSBURGH, PENNSYLVANIA
MANAGEMENT'S DISCUSSION AND ANALYSIS
(UNAUDITED)

206, Wilkes-Barre, PA 18701, PA Certified General Real Estate Appraiser Certificate #GA-001701-L) on several key city properties as follows:

Property Description	Appraised Value
Jefferson Park, Cornelia at New Streets	\$ 150,000
Public Works Facility, 2 Tunnel Street	275,000
City Hall, 35 Broad Street	1,511,000
Pittston Memorial Library, 47 Broad Street	<u>3,890,000</u>
TOTAL	<u>\$ 5,826,000</u>

Thus it is clear that inclusion of the Fixed Asset Inventory, in addition to being a required audit component, would result in a significant positive material impact on the city's overall financial statements. The city has appropriated funding and committed to completing the fixed asset inventory for inclusion in the Fiscal Year 2018 Independent Audit.

GASB 45-- OTHER POST-EMPLOYMENT BENEFITS

Compliance with GASB 45 related to Other Post-Employment Benefits was achieved in the spring of 2016 when the City contracted with the Beyer-Barber Company, Employee Benefit and Actuarial Consultants, to produce the required OPEB report. This report dated June 28, 2016, was provided to the Independent Auditor for inclusion in the Independent Audit and Financial Statements as required by GASB 45 and is also on file for review at City Hall.

Other obligations include accrued vacation pay, compensatory time and sick leave.

GASB 68 Disclosure

For compliance with requirements of GASB 68, the city contracted with Beyer-Barber Company, Employee Benefit and Actuarial Consultants, to provide the required disclosures for each city pension plan pursuant to GASB 68. Copies of the GASB 68 disclosure report for each pension plan were provided to the Independent Auditor and are on file at City Hall for review.

2016 ANNUAL BUDGET

The City Council has adopted a comprehensive budgetary, financial management and debt management policy (Pittston City Code Chapter 23) and the Fiscal Year 2017 budget was prepared in accordance with the parameters of the policy (§23-2). The Fiscal Year 2017 Budget was approved by Ordinance, File of Council # 5 of 2016 and the required supporting tax revenue ordinances all were adopted by the City Council at the meeting of December 21, 2016.

During the course of the fiscal year, the City Council proactively amended the General Fund budget in March (Resolution 11980) and the General, Sewer Maintenance and Liquid Fuels Funds in September (Resolution 12053) and to reflect the then most current projections of revenue and expenditures and to reflect proceeds received from grants and the issuance of long-term debt.

The following table shows the total annual budget for each appropriated fund for Fiscal Year 2017:

Fund Name	Approved FY 2017 Budget	Final Revised FY 2017 Budget
General Fund	\$ 5,033,929	\$ 4,967,706
Sewer Maintenance Fund	\$ 1,062,800	\$ 1,213,477
Liquid Fuels Fund	\$ 242,500	\$ 225,477

CAPITAL PROJECTS FUNDS

Please note that beginning in Fiscal Year 2014, the city established a number of capital projects funds to account for several large capital improvement projects. These included capital improvement funds for the expansion of the city library; replacement of city street lights; energy savings programs at city hall and the public library; renovation of city hall, Downtown Streetscape Phase IV and received additional funds from PENNVEST for repairs and renovation of sewer lines (PENNVEST Sewer Capital Improvement Fund). Authority to establish, receive, and expend these funds was appropriated in specific Resolutions adopted by the City Council during fiscal year in which they were established. While the streetlight replacement and energy system savings projects were completed, the other projects were still ongoing throughout Fiscal Year 2017 and all activity with regard to funds received and expenditures paid were recorded in the capital project account for each project.

CITY OF PITTSTON, PENNSYLVANIA
MANAGEMENT'S DISCUSSION AND ANALYSIS
(UNAUDITED)

Additionally, in the final quarter of Fiscal Year 2017 an additional capital project fund was authorized and appropriated to undertake renovations to Sullivan Park.

During Fiscal Year 2017, capital expenditures for these projects were as follows:

<u>Capital Project Account</u>	<u>FY 2016 Total Expenditures</u>
Streetscape Phase IV	\$ 211,236
LCCC Project	159,070
Pittston Memorial Library Expansion	37,761
Pittston City Hall Renovations	99,119
Sullivan Park Renovation Fund	10,991
Pennvest Sewer Project	<u>97,851</u>
Totals	<u>\$ 518,177</u>

SUMMARY

Despite an increase in the earned income tax in 2013, updating and modernization of permit and user fees and the imposition of a flat rate business privilege tax beginning in 2015, the City still continues to be challenged forthright by its ability to generate sufficient revenues and maintain its financial capacity to afford a level of services that our residents are accustomed and in fact, have come to expect. In 2018 the Administration will continue to strive to improve the City's finances and maintain control of department-wide expenditures.

FINANCIAL NOTES TO 2016 BUDGET

REVENUE ACCOUNTS

The City's overall General Fund revenue over the past three years is as follows:

Fiscal Year	Total General Fund Revenue
2017	\$ 4,680,353
2016	4,960,191
2015	4,493,503

The City's two primary revenue sources are earned income tax and real estate tax (property tax). Following adoption of the City's new Home Rule Charter in Fiscal Year 2013, and to offset the cost of a new property tax deduction for homeowners required by the City's new Home Rule Charter, the earned income tax was increased to generate sufficient operating revenue for enhanced city services.

Earned Income Tax. The City levies an Earned Income Tax (Pittston City Code §436-12) Earned income tax collections over the past three years are as follows:

Fiscal Year	Earned Income Tax
2017	\$ 1,224,705
2016	1,417,793
2015	1,185,551

Like many jurisdictions in the region, the City's earned income tax collection was adversely affected from FY 2010-FY 2012 by the bankruptcy and dissolution of the Don Wilkinson Tax Collection agency. Fluctuations occurred through FY 2013 as a result of the outcome of this bankruptcy, institution of Act 32, appointment of Berkheimer Associates as the new Earned Income Tax Collector, and an increase in the earned income tax rate enacted in FY 2013 under the City's new Home Rule Charter. Since FY 2014 this revenue source has stabilized and is showing annual growth.

CITY OF PITTSTON, PENNSYLVANIA
 MANAGEMENT'S DISCUSSION AND ANALYSIS
 (UNAUDITED)

The City is an active member of the Luzerne County Act 32 Tax Collection Committee [Pittston City Code §436-15(B)] and the City's Administration Department communicates regularly with the contracted collection agency, Berkheimer Associates, for alignment of the City's Budget to forecasted earned income tax revenue.

Real Estate (Property) Taxes. Real estate taxes represent the City's largest single source of revenue. After a period of decline due to demolition of blighted structures, abatements approved by the Luzerne County Board of Assessment Appeals, and properties temporarily off the tax rolls while undergoing rehabilitation projects under the purview of the City Redevelopment Authority, the city's overall assessment level showed an increase for FY 2016 as follows:

Fiscal Year	Total City Taxable Property Assessment
2009	\$268,740,400
2010	\$268,441,700
2011	\$266,718,600
2012	\$265,365,900
2013	\$264,073,000
2014	\$265,758,500
2015	\$262,925,000
2016	\$265,622,100
2017	\$267,538,900

Data Source: Luzerne County Assessor's Office

Collections of current year real estate taxes in the in last three years are as follows:

Fiscal Year	Current Year Real Estate Tax
2017	\$ 1,473,978
2016	1,457,044
2015	1,388,118

The City's new Home Rule Charter required the establishment of a "Homestead Deduction" for the assessment amounts of owner-occupied residential homes. Pittston City Code Section §436-42(A) set the amount of the deduction at \$15,000. This resulted in a reduction of approximately \$220,000 in annual property tax revenue beginning in FY 2013. Since that time, real estate tax revenue has seen both increases and decreases. Increases are due primarily to commercial building construction and improvements in the downtown as well as new homes and some residential structure improvements. Decreases are due to demolition of blighted structures, abatements granted by the Luzerne County Board of Assessment Appeals, acquisition of properties by the City Redevelopment Authority pending redevelopment and return to the tax rolls and acquisition of properties by non-profits.

Luzerne County Government is responsible for collection of delinquent real estate taxes and enhanced administration of delinquent property tax revenue has also contributed to more current year tax revenue being received as property owners seek to avoid the fees and costs associated when taxes go delinquent.

Local Services Tax: After several years of fluctuations in the "Local Services Tax" (Pittston City Code Section 436 Title V) due to the bankruptcy of the Don Wilkinson Agency as previously noted and a determination by the new collection agency, Berkheimer Associates, that the City has been incorrectly receiving revenue from businesses not located in the city, this revenue source is now stabilized at approximately \$90,000 annually.

Business Privilege Tax: The city is constrained by current state law in expanding its tax base through the use of business privilege and mercantile taxes. However, beginning in 2015, the city council enacted an ordinance that imposed a flat rate business privilege tax (BPT) which is allowed by current state law. The BPT is now codified in Chapter 436, Article VIII of the Pittston City Code, and business with proceeds greater than \$15,000 per calendar year are assessed a flat tax of \$200. To maximize efficiency in tax collections, the city contracted with Berkheimer Associates, also the Act 32 tax collector for the earned income and local services taxes, to collect this tax. The first year's collections of \$34,196 was slightly below the projection, but has increased to over \$40,000 annually as businesses became aware of the tax and the tax collector initiated delinquency processing.

Fees. The City has also modernized and improved collections of various permit and license fees issued by its building inspection, code enforcement, fire inspection, and zoning offices pursuant to adopted ordinances.

Delinquent Revenue: Beginning in the last quarter of fiscal year 2015 the city began placing liens on properties with significant multi-year delinquencies in refuse fees and plans in 2018

to begin placing liens and undertaking water shut-offs for seriously delinquent sewer maintenance fees. Persistently delinquent accounts have resulted in revenue loss for these revenue sources that support vital public services and the city's action in collecting delinquent accounts is consistent with enforcement actions set forth in the enacting ordinances for the fees in Pittston City Code Chapters 386 and 412. The city also plans to develop a uniform accounting policy for any write-offs of delinquent or bankrupt accounts in accordance with standard accounting policies to most accurately portray receivables.

Overall, the City's revenue is expected to continue to increase at slightly more than the rate of inflation. Downtown business district improvements will result in several new commercial buildings coming into the property tax stream in the near future. In late 2015 for example a large new private medical office building opened on North Main Street and a condominium building was completed on Kennedy Boulevard, both of which will result in additional property tax revenue. A home revitalization project, the new downtown condominium building and a multi-story building with apartments at South Main Street and Tomato Festival Drive opened in 2015 serve as catalysts for improvements in the earned income tax revenue system. At the same time, however, it will be a challenge for the City's revenue growth to match pace with anticipated expenditures

EXPENSE ACCOUNTS

The City adopted a comprehensive budgetary, financial, and debt service management policy in FY 2013 (Pittston City Code Chapter 23) that significantly improved the accuracy of the City's annual budget and resulted in proactive monthly budget to actual reporting by the office of the city administrator with monitoring by the elected officials. This policy has been followed and is regularly updated.

The improvements in the budgetary and financial reporting have made department heads more aware of and involved in administering their budgets and understanding the city's overall financial condition and this has resulted in a significant improvement in department spending being at or below budget appropriations. The office of the city administrator also proposes mid-year budget amendments to the mayor and city council as needed to adopt the budget to changing financial circumstances within the fiscal year.

Consequently, overall General Fund expenditures of \$4,993,587 in FY 2017 were \$25,811 below the budget level.

All areas of FY 2017 overspending were minor and were monitored throughout the year and addressed during FY 2018 budget formation.

While departments did an excellent job of administering their budgets, the city continued to face significant spending pressures, particularly in the area of the required employer

contribution to the defined benefit pension plans, increased debt service required to sustain capital improvements; increased lease costs to replenish the vehicle fleet and increased health and liability insurance costs

Defined Pension Plan Liability. The City is required by state law to provide certain defined benefit pension plans to several classes of full time employees. Decisions made by previous administrations, combined with the effects of the 2008 global recession have greatly increased the cost of these pension plans to the city taxpayers.

The state aid payments for 2014-2017 completely covered the Minimum Municipal Obligation (MMO) for the paid firefighters and nonuniform plans, but only partially covered the MMOs for the police pension plan in those periods.

The city moved aggressively to combat this spending pressure through three proactive measures: The city pension boards completed a comprehensive process that resulting in changing the investment company for the pension plans with the goal of reducing administrative costs while prudently investing for responsible but sustainable market returns; the city successfully negotiated an increase in the member (employee) contribution rate (Pittston City Code §68-37) to the police pension plan in the most current collective bargaining process; and the city council by ordinance dedicated property tax millage specifically to fund the minimum municipal obligation to the pension plans.

Police Pension Plan Minimum Municipal Obligation (MMO) Liability. The police pension plan minimum municipal obligation (MMO) contribution increased dramatically in recent years due to a past administration's decision in collective bargaining to allow lower than normal member contributions; unexpected disability retirements; effects of the 2008 stock market downturn; and a pension "buy-back" for certain police officers provided for in the current collective bargaining agreement between the city and unionized full-time city police officers. Subsequent action taken by the city will result in this "buy-back" being sun-setted in future agreements but it has definite and significant fiscal impact on the MMO as a result of the officers who exercised the clause during the current agreement.

Even after the available state aid was applied to the police pension plan in FY 2015, an obligation in excess of \$247,000, to the police pension plan, remained to the city and during the audit process was noted on the balance sheet as a liability. Towards meeting this liability, beginning in FY 2016, 1.0 mill of Real Estate Tax revenue was dedicated by ordinance to defeasement of this liability and this millage was continued in FY 2017. However, the rate of growth of the police pension liability MMO increased in FY 2016 such that the additional millage was insufficient to both defease the FY 2015 police pension fund MMO liability and fully pay the FY 2016 police pension fund MMO liability and the pattern of not fully funding the police pension MMO fully in the budget year continued in FY 2017 despite the city council's

proactive measure to dedicate millage for this purpose. Thus the 2017 Financial Statements continue to note this material liability.

This liability will continue to force the city to carefully manage cash flow and restrict spending in the city general fund for all other operations funded through the general fund. The city will seek, through collective bargaining, to further increase member contributions to the police pension plan in the future, and carefully manages pension plan investments to maximize earnings while managing investment risk, but short of attributing the number of full-time police officers employed by the city, which is not prudent given the city's population and crime rates, state-level reform of municipal pensions is the only way the city and many other jurisdictions can stabilize and afford this liability.

CAPITAL INVESTMENTS: INFRASTRUCTURE AND PUBLIC PROPERTY

For many years, the city deferred maintenance and improvement of its infrastructure and public buildings. The present administration has invested heavily in repairs, maintenance, and improvement of city-wide infrastructure and public property. To fund this work, the city has pursued grants, partnered with state agencies and public utilities and taken on long term debt.

City Street Resurfacing. The city has pursued an aggressive program of repaving city streets in residential neighborhoods as follows:

- **During 2017**, the annual road-paving project had to be suspended due the extraordinary costs incurred during the record-setting March 2017 blizzard. It is anticipated the annual paygo road resurfacing project will resume in 2018
- **In 2016**, the following streets were repaved: Dewitt Street; Ormsby Alley from Dewitt to Green Streets; portion of Spring Street between Tomato Festival Drive and Market Street; intersection of Cornelia and New Streets; drainage swale along East Columbus Avenue; Market Street; Wood Street; Stark Street; lower Church Street; Butler Street; East Columbus Avenue
- **In 2015**, the following streets were repaved: North Main Street, Parsonage Street, East Frothingham Street, East Oak Street, Cron Street, last block of Carroll Street.
- **In 2014**, the following streets were repaved: William Street, Kennedy Boulevard, John Street, Lower Market Street from South Main Street to Kennedy Boulevard, Swallow

Street, Defoe Street, Bolin Street, Atlantic Alley, Curtis Street, Wilford Street, Reap Court.

- In **2013** the following streets were repaved: New Street from Cornelia Street to the City limits; Wilford Street from New Street to the dead end; Dock Street from North Main Street to Kennedy Boulevard; Water Street from North Main Street to Kennedy Boulevard; Cron Street from Water Street to the terminus; Morgan Lane
- In **2012**, road-paving included: Plank Street, Broad Street, Front Street, Union Street.

This street paving was accomplished through city appropriations and by utility companies and the state government:

- **Investments by Pennsylvania American Water Company.** For the last several years, the city has worked closely with the Pennsylvania American Water Company, which has replaced thousands of feet of water mains on city streets and repaved the affected streets at no cost to the city. During 2015-2016, Wood, Stark, East Frothingham, East Oak, Butler and parts of Tompkins and Church Streets all had new water mains installed and were repaved by the water company. This work continued in 2016 with the installation of a new water main and the repaving of Market Street from South Main Street to the city limits at Pittston Township, and this annual investment continues. During 2017 PAWC began work on installing new water mains along the entire length of Cliff Street and first three blocks of Tompkins Street with the work to be completed and the roads repaved in 2018.
- **Investments by Pennsylvania State Department of Transportation (PENNDOT).** Additionally, with the encouragement of city officials, the state transportation department, PENNDOT, has invested in repaving state highways in the city. In recent years, PENNDOT has repaved: Plank Street, North Main Street, Kennedy Boulevard, and in 2016 repaved East Columbus Avenue.

Sewer System. Much of the city's sewer system was constructed more than 100 years ago and both the storm (rain/snowmelt drainage) sewer and sanitary sewer systems require extensive maintenance and are prone to blockage and failure. In recent years, the city has invested hundreds of thousands of dollars in maintenance and repairs to the storm and sanitary sewer system:

- **Stormwater Sewers:** The city has devoted hundreds of thousands of dollars from the General Fund, Liquid Fuels Fund and Sewer Maintenance Fund to repair and maintain hundreds of catch basins (street drains) throughout the city since 2010. Many of these catch basins were constructed of bricks more than 100 years ago and were topped with grates that don't meet current safety standards. Since 2010, tens of dozens of these drains have been replaced by modern precast concrete inlets with modern safe grates. The City has also instituted an aggressive annual program to annually clean drains and purchased a street sweeper which clears debris from the streets that otherwise might wash into and block drains.
- **Sanitary Sewers:** The city borrowed several million dollars from the state PENNVEST agency to replace portions of the 100+ year old sanitary sewer system but is constrained in undertaking additional large projects until that loan is paid off. The city has been plagued with annual serious sanitary sewer failures in portions of the city that have not yet had the sanitary sewers replaced. Annual large emergency sanitary sewer repairs have cost hundreds of thousands of dollars since 2010 but the city diligently promptly responds to each such occurrence and is making progress towards city-wide rehabilitation. This work is funded primarily from the Sewer Maintenance Fund, a special purpose revenue fund which receives revenue from an annual sewer maintenance fee charged to city properties.

Grant Funds. The city actively pursues state and federal grant funding opportunities and has been successful in receiving millions of dollars in recent years from grants, particularly grants from the proceeds of state casino taxes, grants from PENNDOT, and federal and state funds for stormwater and sanitary improvements and disaster recovery, but the grant funds have been insufficient to meet all deferred maintenance needs. Many of these projects are administered by the City Community Development Office and Redevelopment Authority, which can provide detailed information.

Long-Term Debt. Current-year appropriations (pay-go) and grants are insufficient to address the city's capital improvement needs and the years of deferred maintenance. Accordingly, the city council has enacted ordinances to incur long-term debt for sewer replacement (areas of the city sewer system are more than 100 years old), replacement of the city streetlight system, energy use improvements at City Hall and the Public Library; expansion of the Public Library, renovations to the 1939 city hall, and streetscaping for the downtown business district. In 2017, an additional ordinance was enacted to authorize and appropriate funding for renovation of Sullivan Park. However, this investment comes at a cost of increased debt service. The City fully budgets for anticipated debt service, but future capital improvements may be constrained by the limits of the borrowing base as determined by state law, and the ability to budget the resulting debt service.

MOTOR POOL

Many city vehicles were deteriorated to the point that annual maintenance costs equaled or exceeded replacement costs. Where possible, the city has pursued grants to help fund replacement of the motor pool. During 2015 the city received a state recycling program grant that provided more than \$90,000 of the \$105,000 cost of a new recycling collection vehicle. But the cost of most fleet replacement is fully borne by the city. Further fleet improvements were made in FY 2016. The city has invested heavily in modernizing its public works and police fleets but with a resulting increase in debt lease payments.

This increase is partially offset by decreased maintenance costs and as the leases are paid off the city anticipates lease costs again decreasing. For example, during 2015 the city invested in a new street sweeper through a lease purchase option. The city had not been regularly sweeping streets for many years resulting in accumulation of debris in street drains, leading to increased storm system maintenance costs and continual complaints from residents and businesses of debris in the street gutters. This equipment represents an investment of more than \$200,000, but will achieve long-term goals in preventing blocking of street drains and improving the appearance of downtown and neighborhood streets which will work towards attracting more businesses and residents, growing the tax base.

INSURANCE COSTS

Workers Compensation Insurance. The city's resources are insufficient to self-insure, so the city obtains third party insurance for workers compensation. Changes in state law to workers compensation particularly for firefighters a few years ago left the City and many other jurisdictions unable to obtain workers compensation insurance from private insurers and the city had to obtain insurance from a state entity, the State Workers Compensation Fund (SWIF) resulting in a significant spike in the cost of this insurance from FY 2013-FY 2015.

The City currently pays the workers compensation insurance for its two volunteer fire companies (Erie and Niagra) which represents a significant strain on the General Fund in the face of the tremendously increased cost of such coverage. In FY 2017 this cost for workers compensation insurance for the two volunteer fire companies exceeded \$50,000.

Towards reducing workers compensation cases the city instituted an Employee Safety Committee [Pittston City Code §7-2(I)] that meets regularly and has worked to reduce workplace accidents. The city was able to return to the private market for overall city workers compensation insurance for FY 2015 through hard work by the Safety Committee and the city insurance broker. However, because of the changes made by the state legislature to the

state workers compensation law, the insurance for the two volunteer companies has had to remain with SWIF at considerable cost.

Employee Health Insurance. Like all other municipalities, the city also faces uncertainty in the cost of health insurance for its full-time municipal employees, as required by collective bargaining. Initially, the city saw a manageable impact health insurance premium increase since the passage of the federal Affordable Care Act, but for FY 2016 the city's health insurance premium increased by approximately 18% or six times the rate of overall inflation. This substantial increase was budgetarily managed only through position elimination, an increase in the city-paid deductible, and other spending reductions in the General Fund to offset the cost. The significant spike in the cost of employee healthcare had a material impact on the General Fund's stability.

In an effort to more aggressively address this cost for FY 2017 the city moved to a health insurance trust, Pennsylvania Municipal Health Cooperative, which over time, should result in a reduction of the current rate of medical insurance inflation and a stabilization of the annual premium fluctuations.

With additional changes to federal law affecting health insurance, further uncertainty in the cost of employee healthcare is projected for FY 2018. At this point, each renewal presents uncertainty. The city has been challenged in obtaining union agreement to require full-time employees pay a meaningful share of the monthly premium and annual deductibles, all of which are negotiable under the Pennsylvania state collective bargaining laws. The city will continue to pursue this approach of requiring employees to share some of the cost of health insurance costs to try to ameliorate the cost to the taxpayers, but is constrained by state collective bargaining laws and the cost of arbitration, given an uncertain outcome, is not deemed prudent by city leadership at this time.

Property and Liability Insurance. The city utilizes a local broker to obtain property and liability insurance at the most competitive rates. The city's aggressive Risk Management and insurance administration program has significantly decreased insurance costs. However, some of the savings is offset by the need to responsibly insure new capital investments.

SUMMARY

In conclusion, given the need to years of deferred capital maintenance, and increased personnel costs largely due to the state collective bargaining, employee health insurance, workers compensation and pension laws, the City can anticipate a continued challenge in holding the line on expenditures to the anticipated growth in revenue.

COMMENTS ON NON-GENERAL FUNDS

Special Purpose Revenue Funds

The City maintains a number of special purpose revenue funds. These funds have specific sources of revenue and their expenditures are limited to purposes defined in their authorizing legislation.

- **Sewer Maintenance Fund.** The City's primary special purpose revenue fund is the Sewer Maintenance Fund. This fund receives revenue from an annual sewer maintenance fee established pursuant to Chapter 386 Article IV of the Pittston City Code. Expenditures from this fund are limited to debt service on the PENNVEST sewer improvement loan and repairs and maintenance of the City's sanitary and stormwater sewer system. The existing debt service of approximately \$545,000 annually uses up the majority of this fund's annual budget. However, approximately 60% of the City's sewer system has yet to be renovated and is 80 to more than 100 years old. The City regularly is faced with emergency sewer repairs that challenge this fund's finances and which may require future revenue enhancement.
- **PENNVEST Capital Improvement Fund.** This fund is the loan from the state PENNVEST agency used to replace a portion of the city's sewer system.
- **Liquid Fuels Fund.** The City has been a prudent steward of its Liquid Fuels Fund for road repairs. Unlike many jurisdictions the City does not charge any personnel costs to this fund, and regularly uses this fund for paygo capital improvements to roads and for road maintenance equipment. In FY 2016, the City repaved Dewitt Street, the intersection of Cornelia and New Streets, portion of Spring Street and portion of the drainage swale on East Columbus Avenue as a paygo capital project using Liquid Fuels Funds.
 - **LED Streetlight Replacement:** Several years ago, the city undertook a capital project to replace all of its street lights with energy-efficient LED lighting heads that improved the lighting and drastically reduced operating costs. The city also executed a contract to obtain lower cost wholesale electricity rates. Significantly reduced operating costs for streetlighting and traffic signals was shifted to the Liquid Fuels Fund while a level rate debt service payment for the project is included in the General Fund, eliminating cost fluctuations for budgeting this cost.
- **Disaster Fund:** This fund holds charges and reimbursements for costs associated with state and federal disaster declarations. There were no such events during FY 2017 and this fund was not active during FY 2017.

Capital Project Funds

During FY 2014, the City established several new capital project funds for the expansion of the public library, planned renovations to city hall and expansion of the downtown streetscape. An additional project to renovate Sullivan Park was authorized by ordinance during FY 2017. The City has implemented careful and prudent budgeting and accounting to successfully manage these capital projects on a budgetary basis. All of these projects were underway during 2017 and will continue during FY 2018.

Other Funds

The Office of the City Treasurer also holds escrow funds for fire damaged properties under the City's fire escrow ordinance (Pittston City Code Chapter 255) and for certain condemned buildings pursuant to the City Condemned Building Ordinance (Pittston City Code Chapter 186). These funds are also monitored by the City Controller and Office of the City Administrator.

FLOODPLAIN MANAGEMENT

Parts of the City are in areas subject to federal floodplain regulations pertaining to the National Flood Insurance Program (NFIP). In 2012, the City adopted the most current federal floodplain regulations as required by NFIP (Pittston City Code Section 270) to assure NFIP insurance availability.

REQUEST FOR INFORMATION

Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City Administrator, City of Pittston- City Hall, 35 Broad Street, Pittston, PA 18640

CITY OF PITTSTON, PENNSYLVANIA

NOTES TO FINANCIAL STATEMENTS

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting methods and procedures adopted by the City of Pittston, Pennsylvania (the "City"), conform to accounting principles generally accepted in the United States of America as applied to governmental entities. The following notes to the financial statements are an integral part of the City's financial statements.

FINANCIAL REPORTING ENTITY

The City was incorporated in 1894 under the provisions of the constitution and general statutes of the Commonwealth of Pennsylvania. The City is a third-class city, as defined by state statutes. The City has been operating under a Home Rule Charter since January 2, 2013. The City operates under a Mayor/Council form of government and provides a full range of services, including general administration, public safety, health and welfare, sanitation, culture and recreation, community development, and public works to approximately 8,000 residents. As required by accounting principles generally accepted in the United States of America, the financial statements of the reporting entity include those of the City (the primary government) and its component unit. The component unit, discussed in Note 2, is included in the City's reporting entity because of the significance of its operational or financial relationships with the City.

BASIS OF PRESENTATION

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its blended component unit. For the most part, the effect of inter-fund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

**MEASUREMENT FOCUS, BASIS OF ACCOUNTING,
AND FINANCIAL STATEMENT PRESENTATION**

The governmental activities in the government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The business-type activity in the government-wide financial statements and the proprietary fund are reported using accounting principles prescribed by the Pennsylvania Department of Transportation.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

Property taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. All other revenue items are considered to be *measurable* and *available* only when cash is received by the City.

The City reports the following major governmental funds:

GENERAL FUND-Used to account for all financial transactions applicable to the general operations of the City except for those required to be accounted for in another fund.

COMMUNITY REDEVELOPMENT FUND-Used to account for the grant proceeds received from the state and Federal agencies to fund local development activities such as affordable housing, anti-poverty programs, and infrastructure development.

SEWER MAINTENANCE FUND-Used to account for the sewer usage charges collected from the City residents to fund the sewer improvement project.

CAPITAL PROJECTS FUNDS-Used to account for the financial resources and activity related to the acquisition, construction, or reconstruction of the City's sewer lines, and other public property and city infrastructure. Resources are derived from proceeds of long-term debt and various grants.

LIQUID FUELS FUND-Used to account for the maintenance of city streets. Financing is provided through the City's share of the state gasoline taxes.

The City's Fiduciary Fund accounts for the Pension Trust Fund and Agency Funds. The Pension Trust Fund is used to account for pension benefits for current and retired employees. The principal revenue sources for this fund are employer, employee, and state contributions. The Pension Trust Fund is accounted for in essentially the same manner as proprietary funds since capital maintenance is critical. The Pension Trust Fund accounts for the City's defined benefit pension plans for police, firemen, and non-uniformed employees and retirees. The Agency Funds account for funds held by the City in a custodial or agent function.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board ("GASB"). Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City

has elected to follow subsequent private-sector guidance, except those that conflict with or contradict GASB pronouncements.

Amounts reported as *program revenues* include charges to customers or applicants for goods, services, or privileges provided and operating grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund are charges to customers for services. Operating expenses for the enterprise fund include the cost of services, administrative expenses, and depreciation on capital assets acquired with operating assistance grants. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

BUDGETARY ACCOUNTING CONTROL

The City's budget is prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") using the modified accrual basis of accounting. Annual operating budgets are legally adopted for the General Fund, and other funds as required by enacting legislation.

CASH, CASH EQUIVALENTS AND INVESTMENTS

The City's cash is considered to be cash on hand and demand deposits. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair values.

INTERNAL BALANCES

Internal balances arise from inter-fund transactions and are recorded by all funds affected in the period in which transactions are executed.

FUND BALANCE

The City's fund balance classifications are defined and described as follows:

Restricted: Represents fund balance amounts that are limited by external parties, or by enabling legislation.

MORTGAGES RECEIVABLE

Mortgages receivable represents various notes and mortgages between the Lincoln Heights Corporation ("grantor") and Lincoln Heights Senior Housing, LP ("grantee") for an old school building that was converted to apartments for low income housing. Payment of principal only is due 30 years from the date of the notes, which were signed on various dates in 2005. The premises acts as security for the mortgage. Total mortgages receivable at December 31, 2017 is \$2,129,750.

RECEIVABLES

All accounts receivable are shown net of an allowance for doubtful accounts of \$336,522

The loans receivable are shown net of an allowance for estimated uncollectible loans. The allowance is calculated based on collection history and is approximately \$43,000 at December 31, 2017.

COMPENSATED ABSENCES

Contracts between the City and the three unions representing substantially all police, firemen, and non-uniformed employees provide for various compensated absences for vacation pay and unused sick days.

Vacation time must generally be used in the period earned and there is no accrual for vacation pay included in the City's financial statements.

Sick leave may be accumulated for a maximum number of days as described in each of the respective union contracts. Fifty percent of the accumulated maximum number of days is payable upon death when as the employee retires under the normal retirement provisions of the applicable pension program.

PROPERTY TAXES

The City bills and collects its own property taxes based upon assessed valuations provided by Luzerne County. All uncollected taxes are submitted to Northeast Revenue Service, LLC, agent for the Luzerne County Tax Claim Bureau for collection. For 2017, The City levied 6.85 mills per dollar of assessed valuation for general governmental, debt service, and recreational purposes upon the total taxable assessed valuation of property within the City of \$267,255,900. The 2017 property tax calendar follows:

Issued date	February 8, 2017
Discount period at 2%	Until April 7, 2017
Face period	April 8, 2017 to June 7, 2017
Penalty period at 10%	June 8 and thereafter

DEFERRED REVENUES

Deferred revenues are those revenues where asset recognition criteria have been met but for which revenue recognition criteria have not been met. Such amounts are measurable but are not available. Deferred revenue may also result from revenues being collected in advance of the fiscal year to which they apply or in advance of their legal due date.

RESTRICTED INVESTMENTS

Restricted investments represent resources set aside for the liquidation of specific obligations.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

INTER-FUND TRANSACTIONS

The City had numerous transactions between funds to finance operations, provide services, construct assets, and service debt. As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements. These transactions are classified as transfers-in/out, and due from/to other funds.

The operating transfers between funds for the year ending December 31, 2017 are as follows:

	<u>General</u> <u>Fund</u>	<u>Sewer</u> <u>Maintenance</u> <u>Fund</u>	<u>Capital</u> <u>Projects</u> <u>Fund</u>	<u>Total</u>
Transfers in	\$ 319,000	\$ 179,106	\$ 576,696	\$ 1,074,801
Transfers out	\$ (578)	\$ (895,696)	\$ (178,528)	\$ (1,074,801)

The following summarizes the receivables and payables between governmental fund for the year ended December 31, 2017:

	<u>Due From</u>	<u>Due To</u>
General Fund:		
Pension Fund	\$ -	\$ 576,300
Other Governmental Funds	576,300	-
Community Development Fund	<u>12,226</u>	<u>-</u>
Total General Fund	<u>\$ 588,526</u>	<u>\$ 576,300</u>
Community Development Fund		
General Fund	<u>\$ -</u>	<u>\$ 12,226</u>

DATE OF MANAGEMENT REVIEW

Subsequent events were evaluated through September 18, 2018, which is the date the final statements were available to be issued.

2. REPORTING ENTITY

In accordance with GASB 39, *Determining Whether Certain Organizations Are Component Units*, an amendment of GASB 14, the City evaluated the following related entities for the possible inclusion in the financial reporting entity:

The Redevelopment Authority of the City of Pittston
Lincoln Heights Corporation
Pittston Parking Authority
Housing Authority of the City of Pittston
Pittston Memorial Library
Lincoln Heights Senior Housing, LP

Based upon its evaluation, the City has included the Redevelopment Authority (the "Authority"), the Pittston Parking Authority (the "Parking Authority"), and the Lincoln Heights Corporation (the "Corporation") each as a blended component unit, whereby the financial data for the Authority is presented in the same manner as that of the City's financial operation. The remaining entities do not meet the GASB criteria and are not included in the reporting entity.

The Authority and the Parking Authority is organized under the State of Pennsylvania Community Redevelopment Law. The Authority participates in low and moderate housing activities including rehabilitation of low and moderate income rental housing projects. The City council appoints the governing board of the Authority.

The Corporation is a 501 (c)3 entity formed in 2003 to oversee and provide funding to Lincoln Heights Senior Housing, LP. Lincoln Heights Senior Housing, LP provides affordable safe housing to low income elderly individuals. The Corporation is governed by the same board as The Authority.

3. CASH, CASH EQUIVALENTS, AND INVESTMENTS

The City follows the Home Rule Charter and applicable state law for investment of City funds.

Authorized types of investments for City funds shall be:

- a. United States Treasury bills.
- b. Short-term obligations of the United States government or its agencies or instrumentalities.

- c. Deposits in savings accounts or time deposits, other than certificates of deposit, or share accounts of institutions insured by the Federal Deposit Insurance Corporation or the Federal Savings and Loan Insurance Corporation or the National Credit Union Share Insurance Fund or the Pennsylvania Deposit Insurance Corporation or the Pennsylvania Savings Association Insurance Corporation to the extent that such accounts are so insured and, for any amounts above the insured maximum, provided that approved collateral as provided by law therefore shall be pledged by the depository.
- d. Obligations of the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth, or of any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision.
- e. Shares of an investment company registered under the Investment Company Act of 1940, whose shares are registered under the Securities Act of 1933, provided that the only investments of that company are in the authorized investments for City funds listed.
- f. Certificates of deposit purchased from institutions insured by the Federal Deposit Insurance Corporation or the Federal Savings and Loan Insurance Corporation or the National Credit Union Share Insurance Fund or the Pennsylvania Deposit Insurance Corporation or the Pennsylvania Savings Association Insurance Corporation to the extent that such accounts are so insured; however, for any amounts above the insured maximum, such certificates of deposit shall be collateralized by a pledge or assignment of assets of the institution, and such collateral may include loans (including interest in pools of loans) secured by first mortgage liens on real property. Certificates of deposit purchased from commercial banks shall be limited to an amount equal to twenty percent of a bank's total capital and surplus. Certificates of deposit purchased from savings and loan associations or savings banks shall be limited to an amount equal to twenty percent of an institution's assets minus liabilities.
- g. Any investment authorized by 20 Pa. C.S. Ch. 73 (relating to fiduciaries' investments) shall be an authorized investment for any pension or retirement fund.

In making investment of City funds, the City Council shall have authority: To permit assets pledged as collateral under subsection (d)(3), to be pooled in accordance with the act of August 6, 1971 (P.L. 281, No. 72), relating to pledges of assets to secure deposits of public funds. No custodial credit risk policy for deposits.

Investments of the Pension Fund are held by a fiscal agent under trust agreements that authorize the trustee to invest in any form of property, at its discretion, without restriction to investments authorized for fiduciaries, provided that the investments of the trust shall be kept separate and apart from other City funds.

As of December 31, 2017, the aggregate bank balance of bank deposits was \$1,553,094 of which \$1,298,445 was covered by federal depository insurance and the uninsured remaining bank deposits of \$254,649, were covered by pledged pools of assets maintained in accordance with Act No. 72 of the General Assembly that requires the institution pool collateral for all government deposits. The carrying amount of these bank deposits was \$1,553,094 at December 31, 2017.

INVESTMENTS

As of December 31, 2017, the City had the following Investments:

<u>Pension Trust Fund</u>	<u>Maturities</u>	<u>Fair Value</u>
Managed equity	N/A	<u>\$ 9,132,544</u>

CREDIT RATINGS

The City’s investments had the following credit ratings:

Managed equity	NR	100%
----------------	----	------

The City has no investment policy that would limit its investment choices to certain credit ratings.

INTEREST RATE RISK

As a means of limiting its exposure to fair value losses arising from interest rates, the City purchases securities with laddered maturities. In line with investment policy guidelines, ladders have maturities of 12 months or less.

Compensated absences	<u>\$ 257,309</u>	<u>\$ 133,070</u>	<u>\$ 131,690</u>	<u>\$ 258,689</u>

CITY OF PITTSTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS

The following is a schedule of future minimum lease payments under the capital lease together with the present value of the net minimum lease payments as of December 31, 2017:

<u>YEAR ENDING:</u>	<u>GOVERNMENTAL</u> <u>ACTIVITIES</u>
2018	\$ 151,381
2019	87,333
2020	31,541
2021	21,559
2022	<u>7,011</u>
Total commitment under capital lease	298,825
Less amounts representing interest	<u>17,186</u>
Present value of future minimum lease payments	<u>\$ 281,639</u>

The city has adopted a debt management policy for both short and long-term debt as provided in Section 23-3 of the Pittston City Code.

6. PENSION PLANS

The City has three single-employer defined benefit pension plans covering Police, Firemen and Officers and Employees personnel. The Police and Firemen plans provide for retirement, late retirement, disability, and death benefits to plan members and their beneficiaries. The Officers and Employees retirement plan provides retirement, disability, and death benefits to plan members and their beneficiaries. Refer to Pittston City Code Chapter 68 for additional information on the City pension plans.

**CITY OF PITTSBURGH, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS**

The following table provides information concerning types of covered employees and benefit provisions for each of the plans. Benefit provisions and their amendments are authorized by the separate pension boards:

	Police Pension Plan	Firemen Pension Plan	Officers and Employees Plan
Active plan members	8	7	19
Retirees and beneficiaries currently receiving benefits	11	5	18
Terminated employees entitled to deferred benefits	1	1	0

CONTRIBUTIONS

Pennsylvania Act 205 of 1984, the Municipal Pension Plan Funding Standard and Recovery Act of the Commonwealth of Pennsylvania (as amended) (Act 205) requires that annual contributions be based upon the Minimum Municipal Obligation (MMO), which is based on the plan's annual actuarial valuation. The MMO includes the normal cost estimated administrative expenses and an amortization of the unfunded actuarial accrued liability less estimated member contributions. The Commonwealth provides an allocation of funds which must be used for pension funding. Any financial requirements established by the MMO which exceeds Commonwealth and member contribution must be funded by the employer.

In 2009, the Governor of Pennsylvania signed into law Act 44 of 2009 (Act 44). Act 44 clarifies the limitations on the uses of the special municipal taxing authority currently provided under the Act, and in the case of a municipality utilizing the proceeds from the special tax to fund other post-employment benefits (OPEBs), requires the inclusion of OPEB liabilities in the actuarial valuation report filed with the Commission and in the calculation of the municipality's Minimum Municipal Obligation (MMO), and became effective January 1, 2010.

Police are required to contribute 4% of covered payroll plus \$1.00 per month. Firemen are required to contribute 2% of covered payroll plus \$1.00 per month. Non-Uniformed employees are required to contribute 5% of covered payroll. Non-Uniformed employees may elect joint coverage. Under joint coverage, non-uniformed employees are required to contribute 3.50% of social security pay plus 5% of excess pay. These contributions are governed by the Plans governing documents and collective bargaining agreements. Administrative costs, which may include but are not limited to investment management fees and actuarial services, are charged to the Plans and funded through the MMO and/or investment earnings. The City did not fully fund its MMO for the Police Fund by December 31, 2017. The outstanding balance due is approximately \$576,300.

ANNUAL PENSION COST

State aid contributions amounted to \$78,705 for the police pension, \$46,450 for the firemen pension, and \$99,669 for the officers and employees pension in 2017.

7. POST-EMPLOYMENT BENEFITS

The City implemented Governmental Accounting Standards Board ("GASB") Statement no. 45, "Accounting and Financial Reporting by Employers for Post-Employment Benefits Other than Pensions", for certain post-employment benefits provided by the City which include health insurance benefits. The requirement of this statement was implemented prospectively. The most recent actuarial review of post-employment benefits was performed as of January 1, 2017.

PLAN DESCRIPTION

The City administers a single employer benefit healthcare plan for two of its three unions (the Retiree Health Plan). Benefits provisions are established or may be amended by the terms of the City's collective bargaining agreements with its employees.

Benefit Types Provided:

- Fire - Medical, prescription drug, and vision
- Police - Medical, prescription drug, and vision

Duration of Benefits and Dependent Coverage:

- Fire - Coverage ends when member is eligible for Medicare. Spousal and dependent coverage is only available if retiree pays 100% of the cost

of coverage. If other coverage is available through either employment or retiree's spouse, the retiree must take that coverage.

- Police - Coverage ends when member is eligible for Medicare. Spousal and dependent coverage is only available if retiree pays 100% of the cost of coverage. If other coverage is available through either employment or retiree's spouse, the retiree must take that coverage.

Minimum Age and Service Requirements:

- Fire – 65 years of age and a minimum of 20 years of service, or a work-related disability.
- Police - Minimum of 20 years of service, or a work-related disability

City Contribution

- Fire - Full premium paid for retiree.
- Police - Full premium paid for retiree.

FUNDING POLICY

The City currently finances benefits on a pay-as-you-go basis. A description of the City's contribution is disclosed in the preceding Plan Description. For the year ended December 31, 2017, the City contributed \$21,498 to the plan not including the implicit rate subsidy.

ANNUAL OPEB AND NET OPEB OBLIGATION

The City's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the City's annual OPEB cost for the year, the estimated contributions and other amounts, and changes in the OPEB Obligation.

CITY OF PITTSBURGH, PENNSYLVANIA
 NOTES TO FINANCIAL STATEMENTS

	<u>Firemen</u>	<u>Police</u>	<u>Total</u>
Annual Required Contribution (ARC)	\$ 11,663	\$ 65,172	\$ 76,835
Estimated Annual Pay-As-You-Go Cost Including Implicit Rate Subsidy	<u>-</u>	<u>19,757</u>	<u>19,757</u>
Estimated Change in Net OPEB Obligation	11,663	45,415	57,078
Estimated Net OPEB Obligation - Beginning of Year	<u>10,798</u>	<u>92,033</u>	<u>102,831</u>
Estimated Net OPEB Obligation - End of Year	<u>\$ 22,461</u>	<u>\$ 137,448</u>	<u>\$ 159,909</u>

The City's annual OPEB cost for the year, the percentage of annual OPEB cost contributed, and the estimated net OPEB obligation for the year ended December 31, 2017 was as follows:

Year Ended:	<u>Firemen</u>	<u>Police</u>	<u>Total</u>

Est. % of Annual OPEB Cost Cont.	52%	36%	38%
Estimated Net OPEB Obligation	\$ 5,552	\$ 41,942	\$ 47,494

FUNDING STATUS AND FUNDING PROGRESS

As of January 1, 2015, the most recent actuarial valuation date, the plan was unfunded. The total actuarial accrued liability for benefits as well as the total unfunded actuarial accrued liability (UAAL) for all plans was \$732,511. The covered payroll for all plans (annual payroll of active employees covered by the plans) was \$861,591. and the ratio of the UAAL to the covered payroll was 85.01%. The plan has no segregated assets.

The City does not designate resources for retiree health care costs. Refer to the "Other Post-Employment Benefit Plans Schedule of Funding Progress" on page 60 for a breakdown of funding progress by plan.

Actuarial valuations of an ongoing benefit plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets, if any, is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

ACTUARIAL METHODS AND ASSUMPTIONS

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, if any, consistent with long-term perspective of the calculations.

In the January 1, 2015 actuarial valuation, the entry age normal cost method was used. The actuarial assumptions included a 3.75% discount rate. The annual healthcare cost trend rate for medical insurance and prescription drug insurance is assumed to be 5% in 2016, 8.25% in 2017, reduced by 0.25% per year thereafter to an ultimate level of 5% per year. The annual healthcare cost trend rate for vision insurance is assumed to be 0% in 2016, 1% in 2017, and 2% per year thereafter. The actuarial value of assets used was equal to the market value of assets. The UAAL is amortized over thirty years as a level dollar amount. Participant data was based on information provided by the City as of January 1, 2015.

8. PRIOR PERIOD ADJUSTMENTS

Prior period adjustment represents capital assets and accumulated depreciation that the City had not previously capitalized and depreciated. The effect of the correction is an increase in beginning net assets in the amount of \$183,629.

9. COMMITMENTS, CONTINGENCIES AND UNCERTAINTIES

LITIGATION

The City is involved in several claims and lawsuits relative to its operations. In the opinion of the City and legal counsel, the ultimate resolution of these matters is either unknown, or will not have a material adverse effect on the financial portion of the City.

FEDERAL AND STATE GRANTS

The City participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the City may be required to reimburse the grantor government. As of December 31, 2017, significant amounts of grant expenditures have not been audited by the grantor government, but the City believes that disallowed expenditures, if any, based on subsequent audits, will not have a material effect on the financial position of the City.

CONSTRUCTION COMMITMENTS

The Community Development Fund has entered into several agreements with local contractors totaling \$2,243,300 for redevelopment projects for the City. The community development fund has paid \$505,747 on these agreements through December 31, 2017 while the remainder of \$1,737,553 remains committed.
